Brief Guide to Finding the Full Text of an Article in Ovid

Accessing Ovid

To ensure access to all available full-text articles, log in to PubMed through the Health Sciences Library System’s (HSLS) Web site at http://www.hsls.pitt.edu. From the HSLS home page, click on the Ovid link in the “Quick Links” box on the right side of the page.

Remote access to HSLS e-resources is available to Pitt users through Pitt’s EZproxy service (http://www.library.pitt.edu/offcampus). EZproxy knows when you are off-campus and will automatically prompt you to log in with your University Computer Account (http://technology.pitt.edu/account.html) username and password. UPMC users can access HSLS e-resources remotely via UPMC Access (https://accesshelp.upmc.com).

Finding Full-Text Articles

After completing your search, view the results by clicking on the Display link in the “Actions” column. Results appear in the Citation display format, which includes author, title and source information.

There are several options for locating the full text of an article. The options that appear depend on whether HSLS has purchased a subscription to a particular e-journal.

1. Management of cocaine-associated chest pain and myocardial infarction: a scientific statement from the American Heart Association Acute Cardiac Care Committee of the Council on Clinical Cardiology. [Review] [113 refs]

UL: 18347214

Authors Full Name

5. Cocaine-induced acute myocardial infarction. [Review] [45 refs]
UI: 18056026
Authors Full Name
Rezkalla, Sharof H; Klener, Robert A.
» View Abstract

Full-Text Link Icon Descriptions:

- **Ovid Full Text**
The Ovid Full Text link appears if HSLS has a subscription to the e-journal. This link should lead to the full text.

- **PDF (139KB)**
The PDF link to the full text is provided when available.

- **Full Text**
The Full Text link takes you to freely available articles.

- **Links @ Pitt-UPMC**
The Health Sciences Library System’s dark blue link takes you directly to the full text if HSLS has a subscription to the e-journal.

For various reasons, some full-text e-journals have not been set up for access. In that case, you will see a PITTCat for the Health Sciences link (see first link in image below). PITTCat is the online catalog of the University of Pittsburgh. The PITTCat link may lead to the online version of resources for which full-text linking through Ovid is not yet available. If the library does not have the article, you can request a copy through the HSLS Document Delivery Service at http://www.hsls.pitt.edu/services/documentdelivery (see second link in image below). This service is available to authorized HSLS users only.
